Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

This communication is responsive to the amendment filed 05/04/2005.

Claims 1-63 are pending in this application and claims 1-31 and 52-63 are withdrawn. Claims 32, 35, 41, 49, 50, and 51 are independent claims. In the amendment filed 05/04/2005, Claims 32-51 were amended. This action is made Non-Final.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 32-51 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

It is not clear to the Examiner how a content structure of an object can be expressed by a tree-structure set membership consisting of zero or at least one objects.

Art Unit: 2174

The Examiner suggests changing the ^{language} ~~language~~ to read, zero or more objects. Zero or at least one object is contradictory. KK

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 32-51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant uses the word "object" throughout the claim language for referring to different things. For instance, claim 32 recites "a method for managing a content structure of an *object*, comprising expressing the content structure of said *object* by a tree-structure set membership consisting of (1) zero or at least one *object* ... defining a type of said *object* by a schema definition". The Applicant appears to indicate that the main object consists of other objects; however throughout the claim language it is not clear to what object the applicant is referring to when he is referring to an object. All claims must be fixed so there is no ambiguity to what the Applicant is referring to.

Because of the 112 1st and 2nd Paragraph issues, no art rejection will be made in this Office action.
